DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 2-15, 17-18, and 20-33, drawn to a method of modulating the production or activity of a protein in an organism and a method of treating an organism having a disease characterized by the undesired production of a protein, classifiable in class 435, subclass 375.
 - II. Claims 19, and 34-47 drawn to a method of assaying a nucleic acid, classified in class 435, and subclass 6.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-II are drawn to distinct methods comprising different method objectives, different steps and producing different results.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Claims 2-15, and 17-47 are generic to a plurality of disclosed patentably distinct species comprising compounds having a formula according to (5') Nu-L1-[Nu-Ls]_n-Nu-L2-Nu (3'). Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of this formula for search purposes, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 1635

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet L Epps-Ford, Ph.D. whose telephone number is 703-308-8883. The examiner can normally be reached on M-T, Thurs-Friday 9:00AM to 7:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John LeGuyader can be reached on (703)-308-0447. The fax phone numbers for the organization where this application or proceeding is assigned are 703-305-3014 for regular communications and 703-746-5143 for After Final communications.
